PRINCIPAL'S REPORT:

Thank you to all involved in the first school planning workshop last week. We began by looking at where we are now and where we want YCS to be in three years time.

This week, our **Learning Support Team** will be involved in a **self-evaluation to improve the effectiveness of our processes**. This involves staff, students and parents being interviewed. Students and parents are randomly chosen. *If you do not wish your child or yourself to be interviewed, if randomly chosen, please call our office.* Parents will be interviewed over the telephone.

Last week, I spoke with all students in **Years 5, 10 and 11 about the 2015 School Captain nomination and election process**. They were given our policy and the nomination form which is **due by 9am on 7 November (Secondary) and 14 November (Primary)**. If you require further information, please call me. The successful applicants will be announced at **Presentation Night on Tuesday 16 December**.

I will be attending the Cabonne Council Meeting tomorrow, **Courtney Cusack** will be receiving the **Youth of the Month Award** for October. **Well done Courtney!**

Sport, Lifestyle & Recreation

Sport, Lifestyle and Recreation develops in each student the knowledge, understanding and skills needed to adopt active and health-promoting lifestyles. Through Western Access the Year 11 and 12 students study the same units at the same time. This year students have completed modules on Healthy Lifestyles, Athletics and First Aid. The Healthy Lifestyles topic allowed them to learn about factors that influence a balanced lifestyle. During the First Aid unit students learnt how to deal with an emergency. Whilst the Athletics module allowed them to learn about the skills, equipment, biomechanics and technology used in athletics events.

Charles Sturt University, Rural and Regional Schools Development Program

YCS is excited to announce that the Agriculture faculty has received a grant for the purchase of livestock for the school agriculture plot. The Rural and Regional Schools Development Program is a small grant program (generally between \$500 and 41000) to assist schools in the region to acquire equipment or conduct activities that will facilitate student learning and engagement with their schooling and inspire long term commitment to further education. The grant will be used to support student engagement with learning and further education by purchasing livestock for use during Agriculture lessons. Charles Sturt University is sincerely thanked for their support of students at Yeoval Central School.
