

Year 10 Work Experience

Rat-tat tat and the chitter chatter of children have been some of the sounds heard by Year 10 who have been participating in work experience during weeks 8 and 9.

Mackenzie got her hands dirty at Coady's Auto in Dubbo as she discovered what it was like being a mechanic. She enjoyed her experience and has observed and assisted with vehicle services.

Josie soothed her small charges with a book whilst completing work experience at Dubbo West Pre School. She has been involved in free play and organised activities. Josie found it tiring but fun.

Jaide heard the pitter patter of tiny feet whilst working at the Yeoval Pre School assisting with craft and cleaning up.

Shanai served me a delicious meal at the Royal Hotel the other night as I checked how she was going with work experience.

Molong Hospital and Health One raved about the work Lincoln Monk did with patients. During his work experience he assisted with exercise classes and caring for patients. He even conducted observations including blood pressure and oxygen levels.

The Wellington Hotel benefited from a keen young worker as Ben Einhaus worked hard during his work experience in the kitchens. Ben assisted in the preparation and serving of meals.

Work experience students this week will change jobs as they search for a possible future career.

Program

PRINCIPAL'S REPORT:

Thank you to the many **parent/caregivers** who attended the **Cybersafety** talk by Senior Constable Craig Skene. **Ms Freeth and Mr Horley** did a great job catering for over two dozen parent/caregivers and children.

Last week, **Hannah Vickers** went to Trangie CS for a Pizza Making assessment day for **Visual Design**. Thanks to **Mr Jones (WAP), Ms Loud and Mrs Graham** for their organising.

Well done to our **Super 8's Cricket** team and thank you to **Ms Brown and Mr Thorne** for their organising. Thanks also to **Susie Porch** for assisting with the transport. The boys had a great day!

Last week our **students attended the UPA** to assist the residents with writing Christmas cards. They were also treated with our students who sang for them. Thanks also to **Mrs Tremain and Mrs Johnson** for organising the excursion.

Many thanks also to our **P&C** who continue to provide for your children. **Sara Cannon** ran an extensive Christmas stall and raffles. Thanks also to **Chris and Emma Haycock** who have donated wheat for our stock. The support from our families is overwhelming.

As you can see, our staff are continuing to go above and beyond to give your children a range of opportunities to participate in sport, arts and community service. They have been very busy of late writing and collating student reports which will go out shortly and also preparing for our annual **Presentation Night**. Remember it is on **Wednesday 7 December, starting at 7pm sharp**. I look forward to seeing you all there.

Nicole Bliss
Principal

Super 8's Cricket

Well done to the boys' Super 8's Cricket team who competed last week. Although the boys were unable to come up with a win, all reports are that a great day was had by all involved. Thank you to Mr Thorne for his organisation and parents for assisting with transport.

Please ensure all library books are returned to the school by Friday 9 December.

Overdue notices have been sent, please see Mrs Gavin if there are any concerns.

WESTERN ACCESS PROGRAM

Biology

In the Preliminary course we study Ecosystems and the interactions between living and non-living factors in them. The Patterns in Nature module covers the structure and function of cells, and how they obtain nutrients to grow and repair themselves. The Life on Earth module explores how life came to exist on Earth. We investigate evolution from simple molecules to complex organisms, and the conditions needed to support life here (and elsewhere in the Universe!). The Evolution of Australian Biota module focuses on the evolution and adaptations of Australia's unique animals as a result of isolation and the influence of varied climatic conditions.
