# YEOVAL CENTRAL SCHOOL

Term 4 Week 4  
25 October 2021

At Yeoval Central School we inspire all to be responsible, respectful and cooperative learners. Working together to achieve and grow.

## K/1/2 ART

During H2O primary have had a focus on history. This activity was an art and history cross curricular activity based on Australia Day.

K12 looked into the history of Australia, recognising that this is, always has been, and always will be Aboriginal and Torres Strait Islander land.

Primary students will continue to look into historic events, celebrations and commemorations throughout the rest of the term. All primary students have begun to look at historic and cultural celebrations from countries neighbouring Australia, to broaden their historic knowledge by developing an understanding of the origin of such celebrations.

Mrs Lisa Stempien

At Yeoval Central School we are respectful, responsible and cooperative.

Our PBL focus areas for Term 4 Weeks 1-5 are:

- ◆ Punctual, polite and positive
- ◆ Equipped and ready to learn

# A message from the Principal

Last week we held our first **Aboriginal Education Team** meeting, led by **Ms Livissianis**. It was great to continue the conversations about our self-funded Aboriginal Learning and Engagement Centre, our yarning circle and updating our logo. If **you are interested** in being a part of this team, please contact the school – it would be **great to involve** our parents and community members.

This week staff will continue their **professional learning** to bring awareness, understanding and respect for Country. We will be joined by students to create our own Acknowledgement of Country. Staff will work after school at our School Development Day rescheduled from the last day of this term.

Staff will also work with the executive leaders on evaluating our **Strategic Improvement Plan for 2021**. We usually invite our community to this event, but considering the current restrictions, we are limited to staff and students.

On Thursday, the **SRC** farewelled **Roudey and Claire** as school captains. Thanks to **Ms Loud**, our SRC Coordinator and our SRC members for their organisation and food.

Congratulations to **Mr Michael Gibbons and his wife Tahnee** on the birth of their baby boy **Buddy!**

# Stage 6: Primary Industries

The Year 11 Western Access Primary Industries class has been working on the Weather and Chemical clusters this term.

The warm weather has led to an explosion of pest species- both plant and insects. Students have been putting together a weed and feed plant collection to help with future identification of weed species. Yeoval Central School's roses have developed a large infestation of aphids.

We take our PPE (personal protective equipment) seriously, ensuring that Dominic and Samuel were fully decked out to tackle the aphid problem using eco-oil. Eco-oil is a registered organic miticide and insecticide. It controls a range of problem insects including scale, aphids, two-spotted mite, whitefly, mealybugs and citrus leafminer. Safe for use on veggies, as well as ornamentals, with no withholding period. Spray and eat on the same day! *Mr Ken Horley*

## H<sub>2</sub>O - Diwali

During H<sub>2</sub>O all primary students have looked into Diwali - the Hindu Festival of Lights and celebration of the New Year. Here are our primary students creating rangoli. Rangoli are colourful designs used as a form of decoration in India. They are placed at the entrance of homes to welcome in good fortune, joy and prosperity. *Mrs Lisa Stempien*
